PART OF A
TOP 3
NOT-FOR-PROFIT HEALTH SYSTEM

Aurora St. Luke's Medical Center is the largest hospital in Wisconsin and the only hospital in Wisconsin with a 24/7 on-site heart care team. We provide innovative care to patients from across the state, country and world. A nationally recognized health care provider, we offer a wide range of medical specialties in a culturally affirming and compassionate way to help all people live well.

CLINICAL EXPERTISE AND SPECIALTIES

Cardiac Care

Internationally known for expertise in interventional cardiology, electrophysiology, thoracic surgery and transcatheter structural interventions

Cancer Care

Advanced cancer care under one roof for all types of cancers with a wide array of treatment options including stem cell transplant, accredited bone marrow transplant and cellular therapies, radiation therapies and precision medicine principles

Hyperbaric & Wound Care

Internationally recognized as the birthplace of clinical hyperbaric medicine, St. Luke's is home to one of the largest hyperbaric chambers and busiest programs in the country. Comprehensive care that includes hyperbaric medicine, inpatient and outpatient wound care, and a multidisciplinary limb preservation program.

Minimally Invasive Surgery

Performs the most robotic surgeries across Advocate Health's Midwest region and is a national leader in urology, gynecology, thoracic, colorectal and ENT procedures

Organ Transplant Services

More than 1000 heart transplants, 800 kidney transplants, and 500 liver transplants conducted, as well as expertise in pancreas transplantation

Neurological Care

Extensive neurosurgical and neuroendovascular capabilities support our accredited comprehensive stroke program, brain cancer therapies, epilepsy, movement disorders and the full spectrum of neurological care

Spine Care

Comprehensive spine care services including spine physiatrists, surgeons, pain management specialists, rehabilitation services, and integrative medicine

Women's Health Care

Mammograms, minimally invasive surgeries, gynecological surgical oncology, pelvic floor physical therapy, incontinence and more

CARING FOR OUR COMMUNITIES

Emergency Department patients were referred to Federally Qualified Health Centers to establish a medical home as part of the Milwaukee Health Care Partnership

Karen Yontz Women's Cardiac Awareness Center provides health risk assessments and lifestyle practice recommendations

Aurora Walker's Point Community Clinic is the largest free clinic in Wisconsin and serves a community of individuals that often face barriers to accessing care

2900 W. Oklahoma Ave., Milwaukee, WI 53215 | aurora.org/stlukes | 414-649-6000

Parking:

Students and instructors should park in the Dakota parking structure located at 29th and Dakota streets.

Please enter the building through the Medical Office Building 1 (MOB1) entrance near 29th St and Kinnickinnic Parkway. Because the lot requires badge access, students will need to press the button on the intercom for public safety to open the gate.

In winter, feel free to take the shuttle bus that picks up at Dakota and drops you off at the MOB1 entrance.

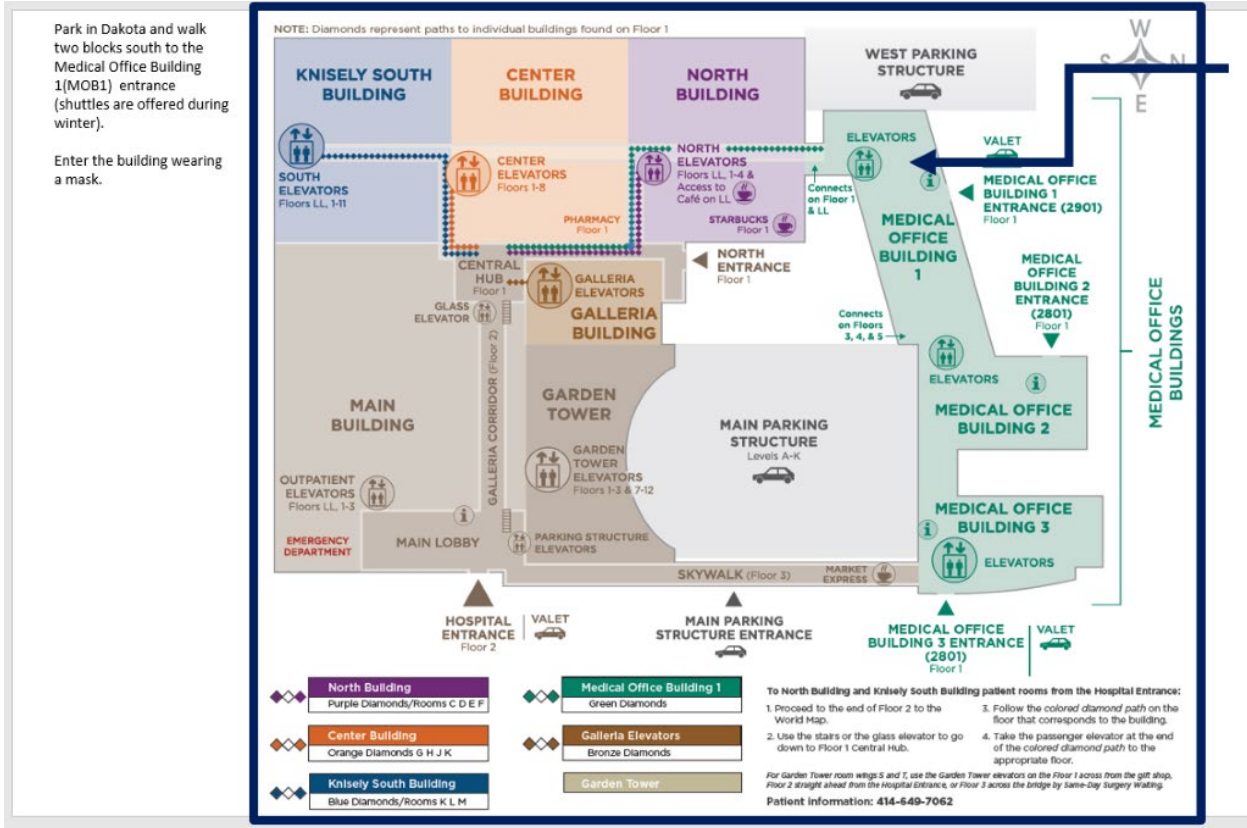

The Dakota ramp is located behind the Aurora Conference Center at 2920 W. Dakota St.

***If your clinical start time is during 2nd or 3rd shift, please park in the Main Parking Structure attached to the hospital.

St Luke's Hospital Map:

Different areas of the hospital are color-coded. Follow the colored floor tiles to get to your desired building.

Created: 9/8/2020 Revised: 10/27/22 by Kristi Webster, ASLMC Nursing Practice Committee Chairperson

Food and Drink:

The cafeteria is in the basement of the North building and hours are primarily during day shift. Seating is available in the cafeteria.

Starbucks is located on the first floor near MOB1. Hours are variable but are typically morning through early afternoon.

Faculty Badge:

On-site clinical faculty will obtain an ID badge from public safety prior to the beginning of their rotation. If you do not have an AH-issued faculty badge, we need to submit a request for you. **To do so, we must submit a photo of you with the request.**

- Send a JPG picture of yourself to [site school liaison](#) to obtain nursing faculty badge.
 - Take photo with a plain background.
 - Photo should include only head and shoulders.
 - Verify photo is a JPG format and straight up and down.

The turnaround time from request to badge is typically quick, but we would like to get this request made as soon as possible.

If you are an AH teammate, unit access will be added to your teammate badge. You will be expected to use this badge for access but wear your school's faculty badge.

If you have an AH issued faculty badge from a previous semester, please send us the complete number from the back of the badge to reactivate.

Please communicate your badge needs prior to the start of the semester.

If you are being issued a new badge, you will pick up the badge from the Public Safety office on the first floor down the hallway from Starbucks.

Student Badges:

Students will wear their school-provided picture identification while on St Luke's property. ID badges will be worn above the waist while on St Luke's property.

COVID Reminders:

COVID-19 information will be updated on the Student Website in the section titled "Orientation for Inpatient Instructor and Students."

Please reinforce the importance and proper frequency of **hand washing** with your nursing students.
