How to install Zoom on your PC desktop computer

To take part in a video visit with an Advocate Aurora provider, follow these simple instructions to install the Zoom app. It takes only a few minutes and you only need to do it once.

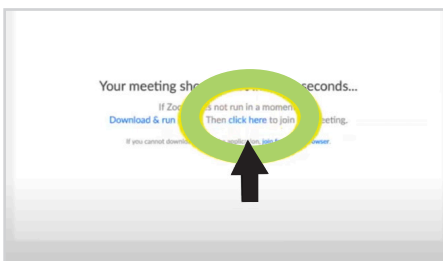

- 1** Open your web browser:
a. Go to **zoom.us/test**.
b. Click **Join**.

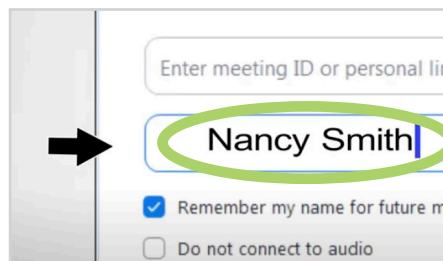

- 2** Click **Run** to download and install the Zoom app.

- 3** Select **click here** to join the meeting.

- 4** Type in the name you'd like to use during your video visit.

Test your computer's video and audio:

- Click **Join with Video**. You should see yourself on the screen.
- Click **Yes** if you hear a ringtone. (If you don't, click **No** and follow the steps.)
- Say a few words out loud. Click **Yes** if you hear a replay. (If you don't, click **No** and follow the steps.)
