Introduction

Welcome to the 2023-2024 Annual Residency Newsletter! As this residency year comes to an end, we are reflecting on all of the lessons we learned, skills we developed, and memories we've made. This year we were able to attend Midyear in-person for the first time since 2019, present our year-long projects at the Wisconsin Pharmacy Residency Conference, connect with other pharmacists at various conferences, and explore Milwaukee as a residency class. We will cherish these fulfilling opportunities, accomplishments, and experiences and use them to guide us through our future endeavors! In this newsletter, we will share highlights of this year, introduce the incoming class of Aurora Health Care Pharmacy Residents, and share exciting updates from our alumni. Advocate Health has prepared us to be well-rounded pharmacists and competent members of a health care team and we are very excited to join the prestigious alumni of Advocate Health residents!

A special thank you to all our residency program directors, residency program coordinators, preceptors, and pharmacy team members for a successful residency year. Your guidance, uplifting advice, and constant support did not go unnoticed and we appreciate you all!
